Organizational Tax Planning

Tax Strategies

Impact Your Bottom Line

JGD & Associates provides tax planning and reporting services to support businesses, executives inside the company, not-for-profit organizations and individuals. Taxes have a substantial impact on a company's bottom line, and our experienced professionals are trained in the complex and often difficult to understand issues, including tax incentives and credits.

Time is Your Best Friend

Time is an important element in tax planning. The power in tax planning comes from deferring tax liabilities using tax credits, deductions or incentives that are constantly expiring. It enables you to leverage these incentives, defer income and position you to better evaluate the post-tax impact of different strategies.

Our Business Tax Services Include:

- Tax Planning
- Federal, State & Local Return Preparation
- Benefit Plan Analysis
- Payroll & Sales Tax Returns & Filings
- Tax Incentives & Credits
- Research & Development Studies
- Cost Segregation Studies
- International Tax Services
- IRS Communications
- Succession, Transition & Exit Planning
- Planning Related to the Patient Protection and Affordable Care Act (PPACA)

Create a Tax Plan

Our professionals develop tax plans that meet the ever-changing tax environment. We will create a plan that will be a roadmap for you, your business and family to follow. To help build and retain wealth, JGD will communicate with you throughout the year to monitor progress and recommend adjustments as needed.
